SINCLAIR'S

NEW SUIT MODES

These stunning new suit modes
are sure to find favor with your cus-
tomers. They are exceedingly
smart in style and finish, having
many clever touches in their trim-
ming ideas. The Fabrics—Serge,
Velours and Jersey Cloth, are of
best qualities and the linings are of
beautiful figured silk.

Prices range from \$30.00 to \$125.00

SEPARATE SKIRTS

Plaits, narrow or wide, help to make these Women's Skirts
attractive. A number achieve enviable individuality by their
striking Plaid colorings. Still others are specially designed for
stout women, and the size range in all styles is most complete.
\$6.50 to \$22.00.

Jersey Cloth for Fall Wear

Very marked is the favor accorded All Wool Jersey Cloth
among the smart new Fall fabrics; and no wonder, for it does
develop wonderfully into charming dresses for street and after-
noon wear. The colors are rich Autumn tones, and the material
is 36 inches wide.

A yard is \$5.50.

SILK SUITS FOR AUTUMN

The ideal suit for present and early Fall wear is one
of heavy Silk developed along the latest lines. Jackets are
long and lined throughout with silk and have especially good
style features. Black and blue are the colors, which is another
advantage.

\$30.00 to \$50.00.

DISTINCTIVE COATS

Careful fashioning and beautiful
fabrics make these Coats
most desirable. Almost all
have large button trimmings
and many have cozy collars of
fur.

Pockets are large and
belts are very narrow. Brown
is the color, but others are well
represented.

Prices are \$27.50 to \$110.00

Hard-Wearing Stockings that Require Less Mending

That's what Buster Brown Stockings are, for we designed them
specially to stand the better of games your boys love. Made them
with two-ply leg and three-ply heel and toe. Made them from
extra-long yarn spun in our own factory.

Our employees have had years of special training in knitting Buster Brown
quality and good looks into hosiery. Your boy will appreciate their snug-fitting
comfort and neat appearance.

Buster Brown Stockings are young gentlemen's
stockings—suitable for all occasions. And you'll find
that they wear longer—they require less mending.
You'll find it takes less money to clothe your boy.

Hospital Nurse Praises Tanlac

Gains Eleven Pounds and is Feeling
Fine Since Taking
Tanalac.

"Tanalac did so much for me that I feel it my duty to tell others about this medicine," said C. M. Ramsey, a professional nurse living at the Hotel George on Sixth street, San Francisco, Cal., recently. Mr. Ramsey has been nursing patients in the hospital for the past eight years.

"Last February," he continued, "owing to an accident, in which my leg was broken, I was confined to my bed for several weeks. I lost my appetite and could hardly eat anything to nourish me, consequently I lost weight. I took several different kinds of tonics, hoping they would help build me up, but they did me no good."

"One morning I read a statement by a lady in Los Angeles, who said she had gotten such wonderful benefit from taking Tanlac that I decided to try it myself. By the time I had finished half of my first bottle my appetite returned and I felt hungry for the first time in weeks. From then on I started right in to pick up and my appetite got better and better and I slept better at night. I have already gained eleven pounds and am feeling just fine, even my doctor has remarked how much better I am looking. I would never show my name to be used in connection with a medicine before, but I have had such excellent results from using Tanlac that I take anyone needing a medicine to build up the system."

Tanalac is sold in Belleville by Oster's Drug Store. In Toronto by J. H. Dicker, in Des Moines by W. J. Nealey, in Kingston by S. Morton, in Maple by J. Will Vance, in Marysville by T. J. McLaughlin, in Ormby by Jax Campbell and in Thomaburg by J. H. Blackley.

STREETS BLOCKED

Complaints were numerous yesterday and not without cause, of visitors who desired to drive to the Agricultural Park. The reason for this was that detour of streets had to be made in order to reach the grounds, owing to bridge street West being blocked for some distance, also the southern part of Yeoman street, adjacent to the grounds. Last evening two cars were stalled for some time at the junction of Commercial and West Bridge streets.

MARRIED IN ENGLAND

The following extract from an English paper will prove of interest to some of Belleville citizens: "On Saturday, June 21, an interesting wedding took place at the London Road Primitive Methodist Church. The contracting parties were the Rev. William Mair, Belleville, Ontario, Canada, and Miss Winifred May Bennett, 25, Fairfield road, Buxton. The pastor, the Rev. John Roberts, officiated. CITIZENS' LIBERTY LEAGUE

ITS AIM AND ITS OBJECT

The Citizens' Liberty League is an organization of representative men and women throughout Ontario, who through necessity have banded themselves together to oppose all legislation (Dominion or Provincial) which tends to curtail the liberties and lawful rights of the citizen.

In view of the imminence of the Ontario Referendum the activities of the League will for the present be chiefly directed to

SANE LIQUOR LEGISLATION

The Ontario Temperance Act, adopted by the Government as a war measure—without the vote of the people—is legislation that does curtail personal liberty and one which has bred great dissatisfaction.

The Citizens' Liberty League is absolutely opposed to a return of the open bar as it previously existed in Ontario under the old License Act. The League believes that The Ontario Temperance Act should be repealed and so enable the Government to enact a law in accord with the sentiment of the people, permitting the general sale of non-intoxicating beer and light wines and the sale of pure spirituous liquors only through Government agencies under proper restrictions.

Now that a Referendum is about to be taken, the members of the League feel that every citizen should clearly understand the meaning and significance of the questions asked in the Referendum Ballot.

In order to accomplish this purpose the Citizens' Liberty League will discuss all phases of this great issue in the public press in the interests of sane, moderate temperance legislation.

RAILWAY TELEGRAPH

IN SESSION AT ST. LOUIS

St. Louis, Sept. 3.—The General
Chairman of the Order of Railway
Telegraphers in the United States and
Canada closed a week's conference
here on Monday to arrange a new

scale and standard working con-

ditioning.

E. K. Manion, President of the or-
der, said resolutions to be presented
would demand uniform working con-
ditions on the various railroads, a uni-
form seniority rule and a standard
rule and wage for the transfer of men

from one division of a railroad to an-

other.

The present wage scale is from 45 to
85 cents an hour.

Concerning Your Fall Shoes

IF you would secure service and satisfaction from your shoes this Fall, it is more than ever important that you should go to a reputable dealer in whom you have confidence, and see that the maker's trade-mark is on the shoes you buy. This for the reason that leather is now scarcer than at any time during the war, prices are higher, and some grades of leather are to-day almost unobtainable at any price.

Millions of pairs of shoes, millions of feet of leather, have been bought for the Nations of Europe whose stocks of footwear were entirely wiped out by the war. This has more than offset the reduction in demand for army shoes. And coming upon a supply of material which was already scarce, it has resulted in a situation which, for the time being, is serious.

Therefore, unless you have first-hand technical knowledge of shoes and leather, you must rely more closely than ever this Fall upon the reputation of the maker and of the retailer.

The retailer who has a reputation to sustain will not endanger it for the sake of a little extra profit. And no established manufacturer will stamp his trade mark upon goods which do not represent good value at a fair price.

The chances are that you do not feel any great interest in the leather market, or in the conditions which govern the manufacture and distribution of shoes. But you ARE interested—vitality interested in getting for yourself and your family reliable footwear at fair prices. And the value which you receive for your hard-earned dollars is inexorably determined by those same conditions which govern what we call the shoe trade. You cannot control them, any more than can. But you CAN control your method of buying, so as to get the greatest possible value for every dollar you spend.

So we think it only just and proper to tell you, at the commencement of each season, what the conditions really are, so that you may base your buying judgment upon them.

To Buy Wisely This Fall:

FIRST: Go to a reliable dealer whose reputation you know and whose judgment you can trust; and

SECOND: Make sure that the trade mark of a manufacturer whose standing is known is stamped upon the shoes you buy.

Our booklet, "How to Buy Shoes," is gladly sent without charge to any address in Canada. Please address inquiries to our head office at Montreal.

FUTURE BELLEVILLE FAIR.
The success of Belleville Fair this year shows the possibilities of a fall exhibition here. With the prospect of the present grounds abandoned in the Greater, Older, Greater City, it is a question as to arrange for the future or the funeral of Belleville Fair. A decision should be reached whether it is better to "carry on" or "allow the Fair to pass into history." If new grounds are necessary the city of securing a site on the east side of the city should be considered to the railways and centre of population. A first-class building would result in great benefit to Belleville in many ways and receive careful attention, but it needs the good will and co-operation of all the people of Belleville as well as our friends in the country. There was not too little local interest manifested and scarcely a day or two of the fair was not attended by a large number of visitors. Belleville is the centre of one of the finest agricultural sections of the province and a fall exhibition would soon become a very famous and attract people here from all over the province. It is the first essential of a Bigger and Better Belleville would be to have a little more individual "pep" and general interest taken in institutions, of which Belleville Fair Exhibition should be the first.

We all stop knocking and hoots for a Bigger and Better Belleville soon be an improvement all along the line of municipal and provincial administration.

SOLDIERS AS ASSAULTS.
The success of a pleasing spirit of cooperation between Provincial and Dominion work upon behalf of returned men, is the result of British Columbia, where the Department of Soldiers' Civil Rehabilitation is giving military courses at the university. A man, at the completion of a six months' course in training, will be for the Provincial Government examination. Best Home-Made Preserving Syrup

Preserving

Real home-made preserves, and the woman who puts them up—how they're both appreciated. Preserving is not difficult to-day. The LILLY WHITE way has removed the uncertainty. Most of your preserving troubles have come from using sugar alone. Even the beginner can count on success if she will use half LILLY WHITE and half sugar. LILLY WHITE blends the sugar with the fruit and makes preserves that will never crystallize.

LILLY WHITE and CROWN BRAND are both Dandy for Candy.

Literary Notes

A NEW WAR HISTORY

"Canada's Own Great Britain in the World War"—By Canadian Authors.

Preceded by an inspiring introduction by General Sir James Currie, Commander of the Canadian Corps, this story of "Canada's Own Great Britain in the World War" by Colonel George G. Smith has many things to commend it to the reviewer's task. It is, where to begin. The praise of men at Canada at Ypres and the Somme has been sung around the world; it has become almost a cliché story. But we cannot, to a new story, after reading the manuscript, tribute paid to the men under the stars of the Great War who led the Canadian Expeditionary Forces.

One is tempted to flatter over these stimulating introductions. General Currie, indeed, they deserve a separate review. But Colonel G. Smith's narrative is no less absorbing, no less thrilling.

We had thought that nothing new could be said about the war, but there is a freshness and charm about the separate review. But Colonel G. Smith's narrative is no less absorbing, no less thrilling.

NEW YORK, Sept. 8.—Eight men were arrested and habit-forming drugs valued at more than \$100,000 were seized by internal revenue agents today in what they declared to be the most important raid of its kind that has ever been made in this city. The seizures had \$50,000 cash on their persons and are said to be members of a large, whose operations have extended throughout the country. The names of the eight men arrested were not made public. The arrests were made by agents working under the direction of Deputy Percy Kenyon.

Rich Ontario Pulp Areas In Demand

American Capitalists Propose To Erect Two Pulp and Paper Plants.

COBALT, Sept. 8.—Old Ontario may look for some wonderful gains in the development of the new sector, Northern Ontario, within the year. This is especially true of that area along the Ontario and Quebec boundary beginning with Lake Timiskaming and extending into the wilds of the far north. There are many opportunities in this. The most material at the present moment, lies in the pulp areas, and this is brought into prominence by the report that American financiers and pulp men have taken an option on a large piece of property extending from Silvey Cove in Quebec well over the Ontario boundary. It is understood that they will purchase and erect a nine million dollar plant. Just recently it was announced that the plant would be erected in the Ragway district by the International Paper Co. of New York.

THE HOME OF CULTURE

In addition to the pleasure derived from music itself, there is the mark of culture which it conveys. There can be nothing coarse or vulgar in the home environment where the real spirit of music reigns.

To speak of music in the home is to speak of the piano, for the piano has become the universal instrument. And when selecting a piano care should be taken that the one selected possesses tone, beauty of line and durability.

Premier Borden Will Delve into

Whole Issue of Veterans Gratuity

WILL PLACE ALL INFORMATION AT DISPOSAL OF VETERANS' COMMITTEE—FEELS TWO THOUSAND DOLLAR PLAN IMPOSSIBLE IN VIEW OF FINANCIAL SITUATION.

OTTAWA, Sept. 11.—(Telegrams are heading into Ottawa by the score) his members protesting against the action of Mr. Robert Borden and the Cabinet in turning down the proposal for a \$2,000 gratuity to the Canadian veterans and the appointment of a commission to investigate its delivery.

The speaker Mr. Borden recovers from his indisposition but he will be called upon by a committee representing the soldier members of the House, headed by Col. Cooper, of Vancouver. This delegation will discuss the whole situation with the Prime Minister.

While Mr. Borden frankly told his veterans that he regarded the proposal as impossible in view of the financial situation of the country, and was opposed to the idea of a commission, he said that he was ready to place on available information at the disposal of a committee to be named by the veterans. He would see that such a committee was given all possible information to enable it to take place in the near future.

Jury's Verdict

Against Motorist

Criminal Negligence Charged

Against Slayer of Truck

Repeater.

TORONTO, Sept. 10.—That Matthew Plumb, the Toronto highway driver, who was killed by a motor car driven by James J. O'Hara, a motor car driver, is at King and Church corners, came to his death as a result of criminal negligence on the part of O'Hara was the verdict returned by a jury at the trial today.

According to the evidence, Plumb, in the company of another man, was on the road when the fatal collision occurred when the motor car driven by O'Hara struck him while going at a high rate of speed and fractured his skull. He was rushed to St. Michael's Hospital, but he died of his injuries.

The police, who arrested O'Hara and his companion, swore that both were in an intoxicated condition and O'Hara at least had been drinking a quantity of liquor. Witnesses agreed that the lighting at the intersection was excellent on the night of the accident and all agreed that the two men in the car were drunk. It was not known by the police and others that the car at the time carrying Plumb a distance of 64 feet on the southwest corner of King and Church, crossed the tracks while working on the track, had been proceeding at a high rate of speed, two red wheels and a white and prior to the collision the motor car over one of the red wheels.

Belleville And Oswego

New Steamer Route

A freight and passenger steamer route between Belleville and Oswego, attracting considerable attention in New York State and receiving much notice in the press of Oswego, Syracuse and other cities. The Oswego Times speaks as follows of the project.

"Oswego was visited by the Hon. E. G. Pratt, M.P., Minister of Parliament for Belleville, Canada, J. E. H. Pratt, chairman of the Harbor Commission of Belleville and Capt. W. H. Schaefer, who is in the coat of inspecting and lumber business in that city. These gentlemen are desirous of establishing improved trading facilities between Oswego and Belleville. The latter city is in an almost direct line across Lake Ontario with Oswego and has splendid wharf and dockage facilities. The gentlemen were the guests of District Attorney Francis D. Collins while in the city and were immediately placed in touch with Mayor Fitzpatrick and President Lindsay of the Chamber of Commerce. It appears that Belleville has a harbor development along the line of the Oswego Canal terminals near it and it is believed that owing to the difficulty of shipping by rail via Niagara Falls that a great amount of tonnage can be diverted from the rail route to the water route by Lake Ontario to Belleville.

As above stated, the J. E. H. Pratt and his party made a great deal of inquiry into the matter and it is believed that the project of establishing a direct line of communication between the two cities will be made a reality. The project will be made a reality by the railroads, shippers, and producers, together for the purpose of bringing about the desired result.

Germany Expects To Resume

"Old Friendly Relations"

BUSINESS CIRCULAR FROM BERLIN SHOWS THAT GERMAN

WILL TRY AND CAPTURE THE WORLD'S

COMMERCE.

Germany defies the war now turned to commerce and begins its invasion of the markets of the world interrupted by five years war effort in an attempt to dominate the world by the sword. A prominent Prussian street business man received the following circular this morning which services him that "Germany believes the war is over whether the Canadian Parliament sees fit to ratify the peace or not."

Note the "Germany to re-establish the old friendly relations." British and Canadian goods, outside of medicine, foodstuffs, would receive a welcome in Berlin which would remind "friendly relations" of the Han era attack; but no doubt German goods will be placed on the market at cut-rates upon the world markets, and absorbed on the ground that sentiment has no place in business.

The circular is as follows:

Gentlemen: As business connections between England and Germany are about to be taken up again, one may hope to re-establish also the old friendly relations. Therefore it is necessary for all merchants, for all those interested in the stock and money market, for all bankers to possess a source of rich and reliable information regarding Germany's trade and industries.

The chief aim of the "Berliner Borsen-Courier" has always consisted in promoting the business relations of these two countries. It is now again in a position to do so.

You must read the "Berliner Borsen-Courier" if you want to be furnished with the best information as to the state of the German economy, its trade, industry and economic administration.

Under our new subscription policy, the "Berliner Borsen-Courier" amounts to M. 25.—quarterly (by postal order).

We should feel very much obliged if you were kind enough to let us know whether you have the intention to figure among our readers.

Looking forward to your reply we remain,

Very Respectfully Yours,
BERLINER BORSEN-COURIER.

TRANSPORTATION BY WATER.

Now that the war is over the question of improving the water transportation facilities should receive close attention. The great demand for all kinds of vessels occasioned by the war is practically at an end now and there will soon be more boats available for inland ports. Mr. Porter, the member of Parliament for West Hants, has started the bill relating with the inauguration of a movement tending to create a freight and passenger steamer service between Belleville and Oswego. This route should be especially attractive to motor car tourists, American and Canadian, making a close connection between the splendid roads of New York State and the beautiful scenic highways of Central Ontario, besides travelers generally to and from the United States.

The freight possibilities of a steamer line between Belleville and Oswego are quite promising and a large and profitable market in New York City might be developed for various kinds of Canadian goods. While importers would find exceptionally good shipping facilities here for interior points in Canada via the three railways connected with the government wharf by a siding with interconnecting privileges.

Mr. Porter personally visited Oswego and interested prominent business men there in the project, which it is to be hoped will be successfully worked out.

BLUNT, BUT HONEST.

If Sir Robert Borden had been a shilly politician he would have stalled upon the request of the G. W. V. A. for increased gratuities. It would have been easy to have "passed the buck" to a commission to toy with until the enthusiasm had died out of the promoters of the demand. Sir Robert Borden was brave enough to be honest and, believing that the financial proposition involved in the request for an additional \$2,000 gratuity was impossible to grant, bluntly said so, refusing to shift the responsibility. Sir Robert Borden may be mistaken upon the gratuity question, but he is at least honest, and the soldiers and their dependents have no better friend, one who has done and will do all he can for Canada's brave hero sons, consistent with his duty as he sees it to the citizens of Canada as a whole.

Decision not to appoint a commission does not mean that the government will refuse to grant increased gratuities—no doubt they will go as far as possible in that direction and their hands will be strengthened by the public sentiment which the veterans will arouse in favor of increased gratuities by their vigorous campaign which started with such a bang in Toronto.

The veterans are entitled to the very best treatment the nation can afford them.

MARTYRDOM OF CHRISTIANS.

Although the Turk generally is credited with more humane methods of fighting in the late war than the Germans, the infamous slaughter of Christians marks any record for fair fighting that may have been achieved.

Not only has this brutality been wreaked upon the Armenians, but Persian women and children whose fighting men aided the allies, also suffered most atrocious treatment.

The London Daily News has just unearthed a terrible story of the martyrdom of the Christians of northwest Persia. It is narrated by one of their number, Dr. Yonan. Soon after the war began, Dr. Yonan says, the Russians came to Urumia, in the province of Azarbaijan, and induced the Christians from Syrian battalions to fight against the Turks. There was a battle in Urumia in February, 1918, in which the Christians were victorious. After this the heroic but small Christian forces fought fourteen battles with the Turks and Persians and routed their enemies. But no help came from the allies, and the defeat of the Armenians cut off the Christians from the Syrians. By the end of July, 1918, their ammunition was exhausted, and the Turks were at the gates of Urumia. The Christians who dwelt at Salmas, a fertile plain on the north side of Lake Urumia, had been massacred and flight was the only course left to those of Urumia.

So 75,000 men, women and children left their homes in a vast procession, taking with them such property as they could collect hurriedly. Those who could not escape sought refuge in the American and French missions. Here terrible scenes were enacted. Monsignor Sontag, head of the French mission, died a martyred death and his brethren in religion were also murdered.

Children were laid on the piers of open Bibles and hocked to pieces. Meanwhile the fugitives were attacked by the enemy at four places, and thousands were cut off and massacred. Children were snatched from their mothers and dashed to the ground. Hundreds of women were carried away to Mussulman harems. In all 30,000 were killed, hurt or captured.

With such crimes awaiting settlement it seems unnatural that people of Christian countries can turn from the scenes to engage in disputes at home.

OTHER VIEWS

Not Too Trusting.
Buffalo Commercial.

We trust the Government will bring down prices of food and shoes and other articles that we must have in order to live, but we are not going to begin buying perforce, steak and veal on the strength of our hopes.

Why AS Bulgaria?

Just what has Bulgaria ever done for the world that entitles her to consideration of having a port on the Aegean Sea? It has a long Black Sea coast and the Dardanelles will be open. That's enough.

Useful and Very Interesting.

Toronto Star.

The new Board of Commerce should hasten to one of its corporate tasks of preparing a report on the Canadian situation, estimating into millions that have been made in the past twenty-five years, and how they were made in each case, and to what extent the government has been responsible for the enrichment of the few at the expense of the many. It would be a highly useful report.

CONDITIONS OF PROSPERITY

Ottawa Journal.

A Chicago paper says Lloyd George's warning to the British people that they are drifting to disaster is quite as much a warning to the American people. It is also a warning to the Canadian people because, unless we have "vastly increased production and curtailment of waste, Canada likewise will soon be in serious financial difficulties. Without these, the apparent prosperity of today will prove but a misleading mirage.

Montreal Star.

The Department of Trade and Commerce recently sent an inspector to Montreal to test the scales, weights and measures used by the retailers there, and in three days, it is said, he found twenty scales short-weighted or doctored. Now, Montreal is not the only city where such criminal acts could take place. Is there any need in this city for such an investigation? Every retailer is a law enforcer already without the civil being added to by such measures.

But if you turn an ordinary cuff it bulges and looks unsightly. You wouldn't be seen with it.

The new "Double Wear Cuff" is different. It folds just as neat and flat when turned in as when turned out. Your friends cannot tell which side is turned out.

One trip to the laundry is harder on a shirt than two days' wear. Every time you turn your cuffs you save laundry money and get more wear out of the shirt. Get the habit—turn your cuffs—it pays.

Continues To Lead In Vocational Work

11,616 Disabled Canadians Receiving Industrial Re-Training.

OTTAWA, Sept. 12.—Canada continues to lead in the important work of the industrial re-training of disabled members of the forces. To-day there are in Canada 11,616 disabled men undergoing industrial re-training under the direction of the vocational branch of the Department of Soldiers' Civil Re-establishment, while total number of disabled men in training in the United States is 6,477. In each instance the figures have been obtained from official sources.

There are at present in Canada 71,915 disabled men receiving industrial re-training in the schools conducted by the vocational branch of the Department of Soldiers' Civil Re-establishment, and, in addition, 4,567 men have been placed for instruction, under the direct supervision of the department, in various shops and plants throughout Canada. To date in Canada 6,072 ex-members of the forces have graduated from these courses.

U.S. Soldier Is Shot By Germans

COBLENZ, Sept. 11.—Private Rease Madison, of Sacramento, Cal., was shot and killed by German soldiers in the neutral zone about a mile from the boundary of the Coblenz bridge-head.

Madison and Pte. Balthager of the 8th Infantry, who have been on post duty, were deserting when they encountered a German patrol of thirteen soldiers. According to Balthager, the Germans began firing without asking an explanation as to why the two Americans were in the neutral zone. Balthager told the American authorities that when he and Madison encountered the Germans he was several yards ahead of Madison.

Balthager said he dropped his rifle as soon as he saw the Germans, who a second afterwards began to shoot at Madison. The Germans continued that Madison fired at them. Balthager declared that the Germans fired first. Balthager was taken prisoner by the Germans and later turned over to the American Provost Marshal and brought to Coblenz.

May Not Wait For All Treaties

Peace With Germany Will End State of War for All.

OTTAWA, Sept. 11.—Under the terms of the War Measures Act that statute becomes inoperative when the issue of a proclamation by the Governor-General in Council announcing the termination of the state of war. This opinion has been expressed in some quarters that unless some legislation is enacted, Canada will be officially at war with the last of the belligerent nations. As this may not be for some months, owing to the disruption of the Turkish Empire, it is suggested that the great powers may decide that for political and strategic purposes peace with Germany countries. Great Britain and France are not expected to offer peace and are not expected to accept peace until they have secured their peace proposals upon the ratification of the treaty with Germany as it is suggested that they may, Canada may follow suit. The War Measures Act and many Orders-in-Council passed under its authority may become inoperative in the near future.

The Reason for the Referendum Ballot

THE Government realizes that The Ontario Temperance Act is unsatisfactory, both to the great majority of the people and as well to the officials sworn to carry out its provisions.

In introducing the Referendum, Premier Hearst said: "During the past year the methods provided by The Ontario Temperance Act for dispensing such liquors as may lawfully be sold, have not proven as satisfactory as the Government would like. The Government is most anxious, as far as possible, to remedy any abuses and relieve any inconveniences that exist."

To Relieve this Totally Unsatisfactory Condition the Referendum Ballot is Provided

The Referendum Ballot gives the people of Ontario an opportunity to repeal The Ontario Temperance Act. By voting "Yes" to all four questions, the people of Ontario will enable the Government to repeal the unsatisfactory Ontario Temperance Act and enact sane, moderate legislation which will permit the general sale of non-intoxicating beer containing 2.51% alcohol by weight, whilst restricting the sale of pure spirituous liquors and light wines to Government agencies.

The members of the Citizens' Liberty League and the great majority of the

people of Ontario do not and will not sanction a return of the bar with the unrestricted sale of spirituous liquors. The League wishes a sane, moderate compromise to meet the reaction against a too drastic prohibitory measure which has resulted in all sorts of evasions and brought the law into contempt, thus tending to destroy our national life as sober, law-abiding citizens.

For these reasons, all fair-minded, thinking citizens will vote "Yes" to the four questions on the Referendum Ballot.

Purina Chicken Chowder Helps Hens Moul

Few hens can produce fowls and eggs at the same time. Feathers are moulted. Purina Chicken Chowder helps hens moult because it runs high in protein. It is not a tonic, but a wholesome, scientific, balanced feed, to be fed with Purina Scratch Feed. These two form a perfect ration for moulting and laying hens. Unlike feed not suitable for moulting and laying hens, Purina Chicken Chowder is fed, moulting will be slow, recovery slow, and production of winter eggs, laying considerably reduced. Feed Purina Chicken Chowder NOW.

You want Eggs next Winter

Ask your dealer for Purina Chicken Chowder and Purina Scratch Feed, prepared to suit you by men who build on Chickens. Buy only at all Food Stores.

Pinnacle St. and Policy Debated At City Hall

DIFFERENCE OF OPINION DEVELOPED ON PROPOSITION OF SHIFTING RAILS OF G. T. R. FREIGHT SPUR ON PINNACLE STREET—RAILS TO BE MOVED TO THE WEST SIDE OF THE STREET—PUBLICITY CAMPAIGN ENDORSED

A joint meeting of the City Council, Executive of the Board of Trade and the Board of Merchants Association, was held last evening in the City Chamber. Matters under discussion were the proposed removal of the G. T. R. track from the west side of Pinnacle street and a contented public meeting to be held on the subject of underground to contain the tracks in Belleville. A lengthy discussion took place on both matters and especially in reference to the changing of the railway track. The subsequent meeting of the Council both parties were endorsed. A note also was placed in the city hall to hold an Old Boy Reunion in the city next year.

Ald. Woodley, Mayor, presiding over the meeting.

Mr. J. D. Macdonald, Local Superintendent of the G. T. R., being called upon, spoke of the moving of the rails in the west to the west side of Pinnacle street to the centre of the street. He said that the rails were to be moved as a change of the rails and as an official of the railway. He said that the business men of Belleville at present time are suffering from cars which are left on the tracks in the bridge street. He said that the rails were to be moved from the bridge street to the west side of Pinnacle street.

King Plans To Secure Employment For Soldiers Out Of Work

MEN WHO PLEDGE THEMSELVES TO DO ALL POSSIBLE WILL BE GIVEN NATIONAL ROLL AND CAN READ CORRESPONDENCE WITH OFFICIAL DEPT.
LONDON, Sept. 16.—A new plan to secure an absorption of the 100,000 still unemployed or disabled army and air force men into the industrial ranks has appeared in the shape of a royal proclamation which the King, holding "a dear obligation upon us," to acknowledge the sacrifices of these men in securing a victorious peace and to employ for as many as possible.

The names of such employers shall be inscribed upon what shall be entitled "The King's National Roll." The employer thus inscribed will be entitled to use on his correspondence an official device, "a seal of honor," indicating the share he has taken in the national obligation.

Canada Must Solve Home Problems First

NO USE TRYING TO SETTLE DISPUTES IN EUROPE UNTIL HOME PROBLEMS SETTLED—LABOR GREATEST OBSTACLE FOR CANADA TO SETTLE.
OTTAWA, Sept. 16.—There is no use of Canada trying to settle disputes in Europe if the problems in Canada cannot be settled first, and the labor problem is one of our greatest," was the message to the National Industrial Conference delivered by John Borden, of Toronto, spokesman for the Labor group, this morning. He appealed to everyone to drop all feelings of hostility and political views and approach the questions before the conference in the spirit of human goodwill.

The third group in the conference, representing agriculture, civil service, G.W.A., and the public interests generally, has been given a voice in shaping the committee's reports, although their delegates on the committee will have no voting powers. A special committee was decided upon to take up the consideration of recommendations of the Royal Commission on Industrial relations that the findings of the committee be put into effect in all work controlled by the Government where the principles of democratic management can be applied. It was pointed out by President Tomlinson, of the Industrial Union of Marine and Shipbuilding Workers of America, that the purpose of this committee was simply to give civil servants and public employees the same rights as enjoyed by employees of corporations and private employers.

Kingston Man Charged With Abduction Of Belleville Girl

NIAGARA FALLS, Sept. 16.—William Gumsy, 26 years of age, of Kingston was arrested here charged with contravention of Sec. 313 of the Criminal Code, together with the abduction of a girl from Belleville under sixteen years of age. The local police arrested the man in a boarding house on River Road. This morning he appeared before Magistrate Fraser and was remanded for a week.

The girl was Georgina Pease, of Belleville. He will probably be charged with two offences, as a new amendment to the Criminal Code makes it illegal to register as his home. Gumsy was taken to Wetland jail, where he will be held until his case comes up for disposal.

Vatican Choir Boys Demand Surrender Of Ex-Kaiser

SPECIAL DESPATCH TO THE INTELLIGENCER
CANADIAN PRESS, LIMITED.
NEW YORK, Sept. 16.—Eighteen choir boys of the Vatican, who were taken to Berlin by the Kaiser's troops, have arrived here today on the steamship Delphin. They were taken to Berlin by the Kaiser's troops, and were not allowed to land because they are under 18 years of age and not accompanied by their parents. This action last week was ordered by the Vatican, and was intended to show the world that the Kaiser's troops were not allowed to land because they are under 18 years of age and not accompanied by their parents.

Proficient Office Help Wanted

Distance men pay liberally for the services of skilled, well-trained office assistants, bookkeepers and stenographers who come to them prepared to do first class work from the start. Untrained or half-trained help cannot be utilized in modern business of office. Business managers and proprietors have no time and no facilities for teaching bookkeeping, or stenography, or typewriting, or general commercial knowledge, to beginners; those things must be learned in a business school, just as physicians and surgeons, for example, must get their training in physiology, anatomy and surgery at a medical college before starting to practice.

Housing Scheme Very Successful

Ninety municipalities throughout the Province are at present working under the Provincial Housing Scheme operating under the department of the Provincial Secretary, and under which there are now 25,000 houses under construction. This means an outlay for the fiscal year from \$1,000,000 to \$2,000,000, and it is proposed to increase the outlay to \$3,000,000 and \$2,000,000, in order to erect 5,000 dwellings.

Ottawa, Windsor and Oshawa are the most active localities in the Province. Ottawa has secured more than 10,000 on which an equal number of houses are being constructed.

Windsor has secured more than 10,000 on which an equal number of houses are being constructed.

Oshawa has secured more than 10,000 on which an equal number of houses are being constructed.

Windsor is busy. Windsor applied for \$2,000,000 for their housing scheme, and were successful in securing \$1,000,000 and have started houses now under construction. Oshawa required \$500,000, but secured \$200,000 and will likely have the appropriation doubled in a very short time, as thirty-four houses are under construction, and it is proposed to increase the number to seventy or eighty.

Cocoon Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just wash with Cocoon Oil (which is hair and entirely greaseless), and you will find that nothing else you can use makes the hair so clean, healthy and shiny.

Slightly moisten your hair with water, and then, the Cocoon Oil, which will make an abundance of lather, and cleanse the hair and scalp thoroughly. The lather will also and remove every particle of dirt, dust, and grease. Oil, hair dries quickly and evenly, and it leaves it soft and silky, bright, fluffy and easy to manage.

You can get unlimited quantities of Cocoon Oil at any drug store. It is very cheap and a few ounces is enough to last everyone in the family for months.

What is in a name? Considerable, some time. When the Toronto News changed its name to the Toronto Times many of the friends of the News sensed a change not propitious to the prosperity of their favorite metropolitan newspaper. The News was a friend, but the Times was a stranger, and the going became more difficult, culminating in the cold-weather, purchased nothing better than equalizer, wretched, and high cost of production is a strenuous and nerve-wrecking experience, and while the change of name may not have been the immediate cause of the demise of the News, there was a feeling that it hastened the inevitable. The News-Times had many attractive features and was at all times a progressive journal. Politically it was an out-and-out defender of the Conservative party and policies and was such as appreciated by the old-time partisans who take politics almost as seriously as their countrymen. The News-Times is the latest addition to the newspaper enterprises which has received many additions during the past few years owing to the constantly increasing costs of production.

EXIT THE NEWS-TIMES.

PETROGRAD UNDER THE TERROR.

A remarkable picture of "Petrograd under the Terror" is given in recent issues of the London Times by a correspondent, a Russian officer who was compelled to leave the Bolsheviks and who spent as a refugee, and the going became more difficult, culminating in the cold-weather, purchased nothing better than equalizer, wretched, and high cost of production is a strenuous and nerve-wrecking experience, and while the change of name may not have been the immediate cause of the demise of the News, there was a feeling that it hastened the inevitable. THE BURY FOR JUSTICE.
Burlington Free Press.

In a Georgia town three negroes were shot and a negro lady was burned down by a white mob, which completed the job by throwing a negro into a burning ditch and burning him alive. Unfortunately the white mob in the Georgia town tried to show Great Britain how the Irish and English should be treated to say more attention to the wrongs of the southern negro.

HE NOT CARRYING NEED.
New York Sun.

It was certain to some, therefore, that the verb "to carry" is not a synonym for "to take" in a social company with a wife who would say to her husband, "Oh, I'm going to carry you," and the husband would say, "I'm not really carrying you; you are carrying me." The husband's wife must prefer his entertainment by saying, "May I not?"

Against Readable Advertising.
Washington Star.

Billboard and readable advertising have been under criticism for many years. The weight of adverse criticism has increased and many advertisers are turning to the use of popular opinion, while public authorities and all persons interested in the sight of highways and the general appearance of cities have taken their share in condemning these forms of advertising. In Toronto, where the State highway department is reported to have been in the habit of sending out county road superintendents directing that more than ten thousand miles of highway be kept free of advertising signs of every description.

"There! There! You smoke each cigar as this one has been smoked?"
"I can't. That's the one you handed me."

Not a Loan.
Short-story, said man, can you lend me a fiver?
Long-impatient, "I tried to lend you money several times, but you at ways seem to keep it as a gift."

Advice to Bridge-players.
British in an address in Chatterbox was advised to prospective bridge-players.

Don't spoil everything on your wedding day by telling your wife what you are doing.
The bride's carter, even if a sledgehammer, assure her it is a calm, dry cold, and then take a pill on the day.

Why We Was Leaving.
A prospective groom had come to engage a new arrangement. Trade was very slow and he had a great deal of work to do in delivering. He was in different parts of the town. He was in different parts of the town. He was in different parts of the town.

CITIZENS' LIBERTY LEAGUE

Is Absolutely Opposed to a Return of the Old License System

The Citizens' Liberty League, consisting of prominent men and women in Ontario, place themselves on record as being unqualifiedly opposed to any measures that tend to bring back the bar and the unrestricted sale of spirituous liquors.

On the other hand, the Citizens' Liberty League sincerely believe that the present situation demands a repeal of the unsatisfactory Ontario Temperance Act, and the inauguration of sane, moderate temperance legislation.

These leading men and women, with no selfish ends to serve, and having in mind only the best interests of all the people in Ontario, are convinced that the true solution to the temperance problem is to allow the general sale of more appetizing, non-intoxicating beer and light wines, with the sale of spirituous liquors placed under proper Government regulations and restrictions.

Unite with the Citizens' Liberty League in its earnest, sincere endeavor to obtain temperance legislation which meets the needs of all but curtails the liberties of none.

CRISP COMMENT

The Globe Ottawa correspondent writes this paper that "The members of the Commons are working so hard for that \$12,000 indemnity that a typhoon is descending of the debate on the Speech from the Throne longed up for want of a quorum." That extra sessional indemnity will come in handy to end old Irish Coddling with.

Alas, men and money are said to have become indolent upon the contents of one bottle of Florida water in Toronto, Boston. Some kick a fiver which makes monkey of a man and a "man" of one monkey.

A "Vine crying in the wilderness of standstill, a rook shaken by the wild stagnation, was that lately relayed in Brockville who voted say a typhoon to provide a new job for the unemployed, or, worse, the eight hundred and seventy-eight relayed who voted in favor of the "vine" wrong!

Drop In Prospect
For Bacon Prices
 Live Hogs Show Decrease of \$5.00 Per
 Hundredweight this Week.
 MONTREAL, Sept. 17.—Bacon com-

modities will be glad to learn that a
 drop in prices is on the far horizon
 and that another month or six weeks
 will probably mean the setting of all
 in price of raw material.
 A tick in the price per pound. There
 is a heavy trade with the Wind-
 ward variety retailing at 20 cents a
 pound, and breakfast bacon only five
 cents a pound. The general public
 shows it is necessary. Canada has never
 been a great bacon consuming coun-
 try. The fact that in foodstuffs in the
 establishment of a large level firm of
 butchers in the effect that only about
 one per cent of the amount of raw
 meat is in the butchers' shops is known.
 But another option butcher has it to
 react to the new wholesale price.

that though bacon is not a large factor
 in the daily sales the demand during
 the time has increased by the de-
 crease in price will reach the retail
 market and the consumer.
 Wholesale explain the fact that
 the retail price of Canadian bacon in
 England is lower than in Canada, by
 the fact that the demand is sold in
 larger quantities to the individual
 in England. In Canada the exceptional
 customer purchases a side of bacon in
 England sides are practically always
 made by the side and a considerable
 amount of waste is avoided.

DOMINION TIRES

The Favorite Tires of Experienced Motorists

WHEN a man buys his first
 automobile, his mind is on the
 car as a whole—not on individual
 parts. Often, he is content to accept
 the tires that go with the car.

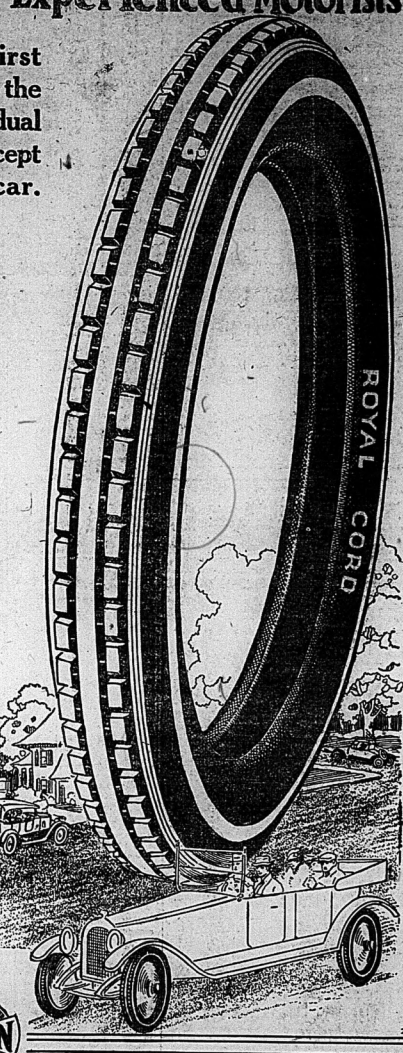

BUT experience sharpens judgment.
 He keeps a record of tire service.
 He weighs cost against mileage. He
 talks tires with other motorists. He
 finds out—by the speedometer—that
DOMINION TIRES give more mileage,
 less trouble and more satisfactory
 service in every way.

THIS is why **DOMINION TIRES**

SHOULD CANADA KEEP ALL HER

Fishing for halibut which is carried on almost exclusively in the more northerly waters of the province, and which has developed to such an extent that to-day it is second only in importance to the salmon industry, is done by the use of very long seines, immensely strong lines, to which are attached the regular intervals, hundreds of hooks, and a large quantity of herring. The vessels engaged in the halibut fishery are of necessity of large size, and are equipped with gear to go considerable distances in search of the fish, and frequently remain at sea for weeks at a time. The average of a halibut vessel numbers as a rule from ten to fifteen men, and it is not unusual for a vessel to be sent out to receive several hundred dollars as his share of the profits from a single haul. The fish are landed every day, and the vessels are constantly among halibut fishermen. Unfortunately, although enormous quantities of these fish are landed every year, for some years past there has been a gradual but steady falling off in the number of fish taken. This is

There has been little effort made to locate new halibut banks, while the knowledge has been going on over the known fishing grounds, and the fish are of an intensive nature, that it must have had considerable effect upon the supply. In 1916 the total catch was 17,165 cases, while in 1917 the catch was 19,151, while in 1917 the decrease only amounted to 8 per cent. However, there is a notable falling off in the catch, noted for 1918, which is when in spite of every effort on the part of the fishermen to maintain the fishery at as high a level as possible, only 1,936 cases of ponds were landed at Vancouver as against 2,162,000 pounds in 1917, while in 1918 the catch was only 1,000 pounds in all waters landed. This decrease in the shows a very large decrease in the amount of halibut landed in 1918, the catch of 1,000 pounds is not sufficient to justify the alarm which has been felt lest the

The question of the export of fresh fish to the United States has always been a controversial one. In the past, more heated arguments than even before the controversy regarding the salmon net have been known to take place. If fish are exported to the United States for immediate sale as fresh food, there can be no doubt that the fish must be frozen. Indeed there is much that can be said in favor of such exportation. It is true that the fish must be frozen, but a fish that should be eaten fresh rather than canned, and in this respect, the fish is no different from even the most bloated piglet may be proud to see upon his table. Tropical drawback illustrates to the shipping agent the necessity of the use of ice in the refrigerator cars, and now part of this difficulty being removed, it is a very large trade should unquestionably be opened up. But the export of salmon for the United States port of salmon for the United States

*The Late
George Brown*

George Brown's Ideal; Robert Jaffray's Ambition.

THE Globe was founded for a cause—that cause was Responsible Government, the Abolition of Clergy Reserves, the overthrowing of the Family Compact. It fought for Ecclesiastical Reform, for Representation by Population, for Confederation. All through the bitter controversies of those early days, The Globe stood conscientiously to its task. It helped lead the country through many dangers and pitfalls to great nationhood.

This was George Brown's ideal. He fought for it by his personal service in public life as well as through *The Globe*, which he founded in 1844. He lived to see Canada emerge from the struggle a fully confederated Dominion, stepping on to the highway of great national progress and prosperity.

Robert Jaffray received his inspiration from George Brown whose guide, counsellor and friend he was.—The management of The Globe by Robert Jaffray, was characterized by an ambition to maintain the George Brown traditions and The Globe's position as the Great Family Newspaper. George Brown, founder.

**"I am not bound to win,
but I am bound to
be true"**

declared Lincoln during the darkest hours of the Civil War. As an advocate of reform and an organ of public opinion, this has been the Globe's principle. Strict adherence to and the continuance of its traditions have realized the George Brown ideal, and fulfilled the Robert Jaffray ambition.

Says the Orillia "Times": "The Globe is to-day in point of influence the foremost newspaper in Canada, and has won for itself the proud place it occupies by sheer merit. Its remarkable strength was shown during the war, no other Canadian paper approaching the excellence and detail of its cable service. The Globe was founded as a defender and exponent of the rights of the common people, and so long as it remains true to its honorable traditions, it deserves to and will succeed."

The Globe still stands for and advocates unity, Democratic Progress and British Confection. Its present publishers are actuated by the traditions laid down by the two great personalities that directed The Globe during its early days and later development. Nothing is spared to make The Globe the paper

It is the organ of no political party. It has always been conducted with an independence that knows no master. It submits to no outside dictation.

Like Lindbergh, the Globe has stayed with its friends when it has deemed them right, and parted from them when it has thought them wrong. It has stood, and still stands, by what it considers the interests and rights of the people.

From its very inception, The Globe fought for a prohibitory liquor law, for nation-wide education, for freedom of trade and commerce, for uniform and equitable legislation, for clean, honest

To-day The Globe is still the servant of the party, its editorial with the Liberal Party is not that of a month ago. It is not that of a month ago, but of an ally in the promotion of all good causes, and of an honest critic when leaders of Liberalism lag in the advance.

The country is facing big problems that are vital to every Canadian. The Globe will consistently and persistently press its viewpoint. The discussions on these big questions and the news of the day will be followed during the coming months should be followed very closely by all people.

The Globe is a Great Family Newspaper

It is rich with honorable traditions, always true to the causes which brought it into existence, always the advocate of every good cause.

Because to-morrow's Globe will be what it was to-day, what it was yesterday—because it will be what it has always been, it is worthy of a place in your home.

Canadian Beauty
Electric Iron

YEs simply turn on the current and the laundry is gone. And the iron takes hours out of ironing time.

YEs—don't even have to tilt the Canadian Beauty Iron on to a
stand-still. When not in use, just tip the iron up on the handy
slanted head-stand. It will not fall.

And it does the work so perfectly, the highly polished, tinned
surface glides over the hardest linen with ease. As the points
of the iron scissor the ironing is done. The tip of the

PRINCE GOLFS IN CANADA--SCENE AT MARLOW REGATTA

- (1) A new motor omnibus, submitted to the Commissioner of Police in London for approval. Carrying capacity is forty-six passengers. Large numbers of the old London motor buses were used for transport in France.
- (2) Aldershot Horse Show--Earl Haig arriving on the grounds; by him is Lady Murray.
- (3) Marlow Regatta--Watching the racing from the Club lawn.
- (4) Wood paving blocks removed for repairs being sold near House of Commons, London, Eng., owing to scarcity of coal.
- (5) Three views of the Prince golfing on Royal, Montreal, Golf Links, at Dixie.

THE PRINCE OF WALES PLAYS GOLF

During his visit to Montreal the Prince of Wales expressed a desire to play a round of golf. The Royal Train therefore, after leaving Montreal, was stopped at Dixie and the party went to the links of the Royal Montreal Golf Club. At the club house the Prince was greeted by Mr. W. C. Baker, C.V.O., president of the club and late secretary of the C.R.A., and Mr. Murray, club professional, with Mr. A. Macdonald, secretary of the club. Motor cars took the party to the links and the Prince immediately walked all difficulties and down the club and walked out to the links.

He said the ladies to "President" and the ladies were Mr. and Mrs. Cope was a little one and the Prince played off from the back of his match and turned to Murray, saying: "This is worse than playing a speech."

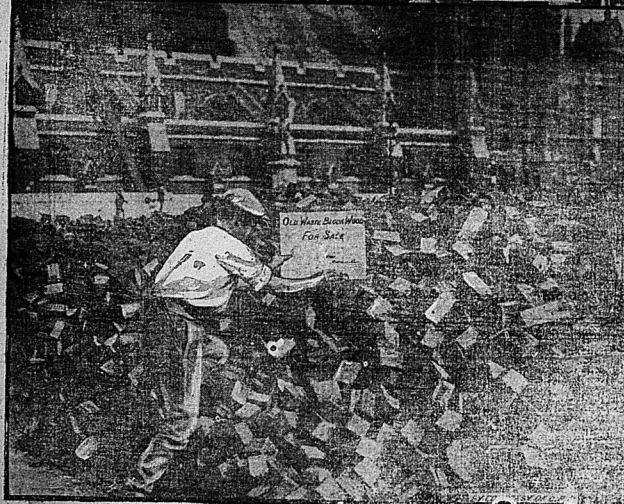

For the first part of the game the Prince had difficulty in keeping the pace with his opponent.

After the ninth hole, however, the Prince played wonderfully and for the last part of the match he played the golf, catching up his opponent's score and they arrived at the final hole with Mr. Baker, one hole up. After Mr. Baker had held in it was found that the Prince would have to make the hole in par to even up the match. Playing brilliantly, the Prince made a skillful putt and made the hole in par, ending the game all square.

The Prince said that he had enjoyed the game immensely and that he hoped that when he returned to Montreal in October he would have the pleasure of playing another match on the links. As a souvenir of the game he presented Charles Murray with a pin. The latter offered the Prince a bracelet and the Prince accepted it, laughing, by remarking that he hoped to make good use of it.

After the game the Prince and party were served with tea in the clubhouse by the Ladies Club. Before going to the Prince expressed the desire to walk across the links to the station instead of going in a motor car, and the party did so. It was 7 o'clock when the Prince left the grounds.

Among the party who visited the links with the Prince were Admiral Sir Lionel Halsey, Major-General Sir Henry Bustard, Capt. Lord Claude Hamilton, Capt. the Hon. P. W. Leith, Lieut.-Col. Sir W. N. Greig, Mr. Geoffrey Thomas and Commander Dudley Morris.

FARM PAPERS

Kill them all, and the grubs too. 10c a packet at Drugists, Grocers and General Stores.

Ontario Department of Agriculture report of farm conditions, December 18, 1918.

There is generally a still and unbroken, although pleasing has abundance of somewhat, especially on clay lands as the land has been getting dry since some fall wheat is to be sown, but the bulk of the crop has been in and much of it already showing up already.

Field potatoes are being dug but the yield is rather light. Late potatoes are still growing, and promise to be better.

Roots are now doing fairly well, except in places in which the weather is suffering from the attack of aphids. Cows continue in promising activity and generally speaking the crop will be a fair one. Silage field has begun, and the instructions are that nearly all the corn will be made into silage and make good silage.

Peas are generally a very early and many farmers are doing some "hot" crops, however, claims that silage is giving good results.

Market offerings of cattle are about normal, but good heavy animals are comparatively few. Co-operative abattoirs, however, show a steady increase. Grade dairy cows are selling at \$10 to \$12.50.

Season buyers in Pool are paying from \$200 to \$250 for good, heavy hogs.

According to the Westworth report, large hogs have been rubbed on Hamilton market on account of the fall in value. Prices over the Province vary from \$10 to \$12.50 a pair.

There is a good supply of hay on hand, but there will be no grain for feeding, as the year, and there will be relatively scarce. Hamilton claims that co-operative clubs will emerge in the fall of their hay and are already looking to increasing their supply of corn and clover feed.

Livestock claims that more stock are going on the farm for winter than in previous years.

LINDSAY'S

Kiddies Love Music

It is natural for the child to love music. The normal child loves nature in its many phases, and what is music if not a reproduction of nature's harmony? This love of music in the child can be turned to good account by the parent. By gratifying it who knows but that musical talent may be developed in the child?

Columbia Grafonola

—the phonograph which brings "All the Music of All the World" to you—is the ideal entertainer for the kiddies. In fact, the grown-up will enjoy the music also. At LINDSAY'S you can get a Grafonola for as little as \$32. The one illustrated here with 156. Columbia Records are 10c. (double-sided) up to \$1.50 each. Easy terms of payment can be arranged.

The Poet's Corinne

THE GEOGRAPHIC CHILD.

The earth outside is like a nut,
And inside full of bones;
There are it's like an orange, but
It doesn't look the same.

The Arctic Circle is a swing
That teacher makes with chalk.
It's not a very pleasant thing
To go there let a walk.

A river is the funniest thing
That's on the map, I think;
It's something like a river of string,
And yet it's good to drink.

The sea is water by the sand,
And very seldom dry;
It looks like bluing water, and
It looks like when you cry.

A valley is a stretch of land,
That's something like a trough,
And you get it on your hand
You have to wash it off.

Wey Francis is but a Russian blue
Nobody knows, perhaps;
But anyone can see its true
By looking at the maps.

A mountain is a hump butt,
An inhospitable pass;
It's called a mountain because
It's surrounded by a bath.

Geography, geography, is such a pleasant
And study
It tells you why the ocean's dry and
Why the desert's muddy.

I study it at morning, and at afternoon,
I study it at night;
The teacher in his room may study
It again.

—Edmund Vance Cooke.

PRISON REVELLE

Out through the iron doorway, bolted
strong,
The night guard's shadow on the
wall.

He looks back his thin, white silver
comb,
Awaits the faint O! God-forgotten
throng!

And the sudden clanging of the
gong!
The silence... aching silence
over all!

While the men the warden's steel-
barred stern, and tall;
Pale daylight greets us like a plain-
tiff's face.

Somewhere the dawn breaks, laughing
at night,
To splash with gold the cities' dome
And constant men seek visions wide
In that alluring world that is not
here.

But no one there could prize as much
The open road, the smell of grass
and rain,
The rustling of the maple's fall.

—Lorenz W. Pennington.

A Laugh or Two

Teacher: "Willie, do you love your

Willie: "Yes, miss, when I meet
them at all ones."

The Bald One: "How any anything
that will grow hair?"
The Barber: "My baby. He will
eventually."

X: "He has left behind lots of
people who struggle to overtake him."
Y: "Conductor on a tramcar."

die."

Wesley Walter: "Who told him?"
Triff: "The judge."

Willie: "Does your son profit by
your example?" Does he imitate your
proceeds and avoid your mistakes?"

Walter: "No; he wants to get married."

He Knew Better.
"Why don't you get out and hustle!
Stand work never killed anybody,"
remarked the philosophical gentleman
to whom a miser applied for charity.

"You're mistaken dear, how," replied
Rastus; "the last four wives died
that way."

But Did He See It?
"There are some times when I certainly
wish I was a man," said his wife.
"When, dear?" he asked.

"Oh, George," I passed a milliner's
shop and think how happy I could
make my wife by giving her a present
of a new hat."

"Yes; this one certainly was. It was

\$5,000.00 CHALLENGE

No. 400
Toronto, September 16th, 1910.
Receipt is hereby acknowledged from
the ONTARIO BREWERS' ASSOCIATION of the sum of
fifty thousand dollars deposited with me
under a Challenge agreement made this day to the ONTARIO
REFERENDUM COMMITTEE to prove that beer containing 2.51
alcohol by weight is non-intoxicating.
A. E. Harris
Master, Ontario Branch.

TO THE REFERENDUM COMMITTEE

The Ontario Brewers' Association can no longer disregard the attempts
of the Ontario Referendum Committee to mislead the people of this
Province in the forthcoming Referendum.

In its campaign literature the Referendum Committee has corrupted
the statutory ballot as set out below, and its advertising positively
asserts that the light beer to be voted on is intoxicating.

The Referendum Committee is either misinformed or is deliberately
misguiding the people for a purpose.

The purpose is to make the voters believe that they are voting for
or against intoxicating beer.

Examine carefully the two ballots herewith.

GOVERNMENT STATUTORY BALLOT PAPER

- Question 2.
ARE you in favor of the sale of light beer containing not
more than two and fifty-one one hundredths per cent.
alcohol weight measure through Government Agencies
and amendments to the Ontario Temperance Act to
permit such sale?
Question 3.
ARE you in favor of the sale of light beer containing not
more than two and fifty-one one hundredths per cent.
alcohol weight measure in Standard Hotel's local municipalities
that by a majority vote favor sale of amendments to the Ontario Temperance Act to permit
such sale?
Question 4.
ARE you in favor of the sale of spirituous and malt liquors
through Government Agencies and amendments to the
Ontario Temperance Act to permit such sale?

REFERENDUM COMMITTEE'S DISTORTION

2. ARE you in favor of the SALE
OF INTOXICATING BEER in Government
Agencies?
3. ARE you in favor of the SALE
OF INTOXICATING BEER in Stand-
ard Hotels?
4. ARE you in favor of the sale of
all kinds of spirituous and malt
liquor in Government agencies?

The Government Ballot clearly shows that the public
is only to vote for or against the sale of beer contain-
ing not more than 2.51 per cent. alcohol by weight.

Beer Containing 2.51 per cent. Alcohol by Weight is Non-intoxicating

To establish that the 2.51 per cent. beer to be voted on is not intoxicating,
the Ontario Brewers' Association have deposited \$5,000 with the
Canada Permanent Trust Company, and they hereby challenge the
Ontario Referendum Committee to deposit an equal amount with the
same Trust Company to prove that beer containing 2.51 per cent.
alcohol by weight is intoxicating, or admit that their literature is
deceiving the electorate.

Upon the investigation, the losers are to forfeit their deposit to a charity or
charities to be named by the investigating board. The investigation is to take
place before a nominee of the Ontario Referendum Committee, a nominee of the
Ontario Brewers' Association and the third nominee to be agreed on by the two
persons so chosen - and if they fail to agree, to be named by the Lieutenant
Governor of Ontario.

This Challenge to be answered immediately by the Ontario Referendum Committee.

Ontario Brewers' Association

Millions of gallant young men have fought for the new world.
Hundreds of thousands died to establish it. If we fail to honor the
sacred given them, we dishonor ourselves.

What does the new world mean? What was the old world like?
It was a world where toil for myriads of honest workers, men and women,
purchased nothing better than squalor, penury, anxiety, wretched-
ness, a world scarred by plagues, degraded by sweating, where unemploy-
ment, through the vicissitudes of industry, brought despair to millions
of humble beings; a world where, side by side with vast wealth was
the inexhaustible riches of the earth, partly through ignorance and
want of foresight, partly through entrenched selfishness.

If we repeat the lease of that world, we shall betray the heroic
dead. We shall be guilty of the basest perfidy that ever blackened a
people's fame. May we shall store up retribution for ourselves and our
children.

The old world must and will come to an end. No effort can avert
it up much longer. If there be any who feel inclined to maintain it, let
them beware lest it fall upon them and overwhelm them and their hope-
fuls in ruin, sorrow and death.

It should be the sublime duty of all, without thought of partisanship,
to help the building up of the new world, where labor shall have its
just reward and indolence alone shall suffer want. —Lloyd George.

STAYING AWAY FROM CHURCH

A writer in the British Weekly raises the old question of why so
many people neglect church-going. He describes a Sunday scene at the
vicarage. "Ten of thousands are making holiday in the sunshine; not
one in fifty attends church. Why? Some are tired, simply tired, and
taking in sunshine and fresh air. But many are vigorous young people,
and no slackers; men who have fought, women who have worked in the
war. Are the churches then at fault? The churches must not be blamed
for not drawing crowds, any more than the informing and thoughtful
London Spectator is at fault because it has not as many readers as a
frivolous contemporary.

From the vicarage he turns to the church service of the morning
of the same day, and becomes more critical of the church. Hardly a note,
he says, was struck that had the palpable intensity of a present living
reality. There was nothing to suggest that intense compassion for the
multitude, which marked the Founder and first Preacher of Christianity.
There was no word which bore upon the real problems and temptations
of life.

This was only one case, and that which it would not be fair to build too
much on. But one may ask whether the preacher always gives
to his congregation the benefit of the searching human experience of
the week, his knowledge of the sorrows and faults among whom he
moves. Many a preacher does his best work out of the pulpit, in visit-
ing the sick, in consoling the bereaved, in advising those who are tempt-
ed in the trouble, in his rich man in his congregation that is not
poor. In the pulpit this rich fund of human experience is not always
drawn upon; the warm friend will preach a sermon that, if not cold,
seems remote and shadowy.

Confidence, of course, must be respected; it is not right or neces-
sary that experiences should be told in detail. It is desirable that power
shall be transmitted along the wire from the river of experience. Sen-
sationalism is not necessary, though there is temptation to resort to it as
a remedy for dullness. Nor is it necessary to load topics in the press,
though positively recorded events are fair subjects for comment. The
fountain which the preacher has to draw upon is his own personal experi-
ence. We do not say that is wholly rejected; but it is not used to the
full extent; it does not always enrich the Sunday discourse as it
might.

What Queen's is Doing

W. Beatty, President of the Canadian Pacific Railway, to lend his support, Queen's has every reason to expect to continue to go ahead.

Recognizing the importance of industry to Canadian development, Queen's has carried on important industrial research work, and Mr. G. Y. Chown, the popular Registrar, has contributed \$50,000 to the endowment of a Research Chair. Professor Clark, who holds the Chair of Physics, has established a laboratory for the investigation of substances under extremely low temperatures, with the use of liquid air and liquid hydrogen, the only laboratory of its kind in North America. Dr. Reid has been investigating the causes and suggestible cures for influenza, and has made valuable discoveries tending to combat the recurrence of future epidemics. Professor MacClement is an expert on the noxious fungi which would destroy our great Canadian forests if left to themselves. Dr. Lathrop has been carrying on valuable research work on trench fever, with the object of discovering the true nature of this curious disease of the European battlefields.

The Arts Faculty of the Queen's is conducted by Professors, who, in their own fields of work, are just as enterprising, and the man or woman with a Queen's degree has an excellent chance of succeeding in whatever learned profession he or she may adopt. During the year 1918-19 there were 501 students registered in the Arts Faculty. Special efforts were made by all faculties to meet the requirements of returned soldiers. The University's character has been improved by the addition of a Senator

DR. BELL & TAYLOR

The installation of a new Chancellor and a new Principal on the same date will bring a great many distinguished Canadians and Americans to Queen's University, Kingston, on October sixteenth. For all about a comparatively small University, Queen's has sent so many distinguished graduates into the world and has gained such a character for sound learning and enterprise in research and education, that it stands high among the institutions of the first in this Continent.

Queen's came to the front under Principal Grant, who was a born leader of men and gathered round him a brilliant staff of lecturers and professors. Under Principal Gordon, who succeeded Grant, the University continued to prosper, and the number of students doubled while the number of buildings was trebled. The new Principal, Dr. Bruce Taylor, has already shown his mettle by raising the half million dollars required to fulfill the terms of an agreement of a further half million dollars received by the Dr. Duggan. With over 500 students and new buildings each at the

E. W. BEATTY, R.P., President of the C.P.R. School in Engineering, restricted to men who had been overseas, saved an academic year to a large number of such returned men, and was conducted without Government assistance at the expense of the University itself. For the last three years the new Arts building and the Grant Hall have been used as a hospital by the military authorities, and there has been abundant testimony to the satisfaction that the patients have felt in being lodged so well and in such beautiful surroundings. The entire building is now being used for the growing requirements of the University.

How We Go At It
First we look into the battery to see if you put it in the right place.

Then we use the hydrometer which is the condition of the battery.

Then, if no special cause of trouble appears we put it on the floor to see if it will hold its charge.

Then, if there is plain leakage we open the battery up and see what's wrong.

Then, if you get your battery to amperage we claim they can hold inside condition by good inspection.

Can here where you find adequate machine and apparatus to really charge and repair your battery.

Stevenson's Report On

Retraining Of Soldiers

LABOR LEADER ACTING IN ADVISORY CAPACITY TO GOVERNMENT DEPARTMENT VISITING WITH VOCATIONAL PLANS USED THERE.

HALFINGTON, Sept. 24.—The cooperation of organized labor with the Government in dealing with the problem of retraining in industrial life the Canadian soldiers who had entered the forces and proceeded overseas, is the subject of a comprehensive report submitted to the Trades and Labor Council of Canada. The report is the work of Mr. T. A. Stevenson, representative of the Trades and Labor Council in the Department of Soldiers' Civil Re-establishment.

Mr. Stevenson relates that he was assigned to Ottawa to act in this advisory capacity and in conjunction with Major L. J. Aulter, representing the Canadian Manufacturers' Association, the latter being in charge of the department, to act in the organization of a branch to take care of the discharged men, which branch was to furnish all necessary information, subsidize men, as well as giving all possible assistance in obtaining employment.

The branch was named the Information and Service Branch. SIXTY THOUSAND MEN PLACED ON THE LIST. Mr. Stevenson states that the branch, in co-operation with the Department of Soldiers' Civil Re-establishment, the Provincial Labor Departments of the Dominion Government, assisted in establishing 60,000 employment offices throughout the country for the purpose of carrying on the work.

Up to the week ending August 23, some 60,000 discharged men made reports for position and training. Mr. Stevenson expressed his of this sum has 60,000 have been placed.

Classified the report "Thinking, or some re-organizing employment for the discharged men, it is endeavoring to supply them with all information necessary in connection with their military and civil life. The report also supplies information on such subjects as gratuity, deferred pay, pension, land settlement, medical and dental services, vocational training, etc., to the number of 20,000 inquiries. The representative of the Information and Service Branch in the employment office, registers the discharge and sees that he receives preference in employment, everything being done to help the discharged men.

THIRTY HUNDRED VOCATIONS.

Mr. Stevenson deals with the work of the Vocational Branch of the department, pointing out that while men are endeavoring to obtain employment, the similar class of men in the United Kingdom are being trained only to civil life.

The Labor representative, in company with Mr. W. E. Segsworth, formerly Director of Vocational Training in England to make a study of the system in use there for the retraining of disabled men.

STUDY OF ENGLISH SYSTEM.

His common factors. Mr. Segsworth, the late Director of Vocational Training for England, was sent for England to make a study of the English system of retraining of disabled men and to especially look to the labor side of the question and was co-operating with the government of that country in this broad work. We found in England that the system of retraining was somewhat divided between the various branches of the Government and that the Ministry of Labor, the Ministry of Pensions and the War Office were working independently of each other on this enormous task. Up to July last some forty different trade unions in the United Kingdom made arrangements with the Government for the training of disabled men. Their schemes are all planned and their personnel would be led to believe that the Government was giving them special consideration. The Government was extending from five to ten years, but as a matter of fact the men are placed in industrial training schools for six or twelve months after which they are placed as employees and laborers as soon as their wages as apprentices equal the training allowance of the British Government, just so soon does the Government release them from direct responsibility. I was surprised to find in England that on account of the industrial conditions they are not really suffering to industrial training. For example, at one committee I had found a few fishermen and 400 men with no previous experience about building lines, apprenticeship, and fishing. I also saw

several cases of regular soldiers, ranging in age from 35 to 46, being placed in carpentry, plumbing and other branches of the building trades.

THE TRAINING ALLOWANCES LOWER than two much lower than they are in Canada. Single men and married men without families are allowed \$33 a month, or the equivalent of \$82.50 a week, or the equivalent of \$82.50 a month. A single man with one child, 80¢ a month and a further 80¢ for the third and 85¢ for each additional child.

During the past summer the Government of Canada has extended its training facilities to labor unions who are interested under the age of 30 in general thousands of applications are being received from this class of men to either finish their apprenticeship or complete their education which is completed at the time of their retirement.

In concluding his report, Mr. Stevenson invites officials of the Government throughout the country desiring information to any of the activities of the Department of Soldiers' Civil Re-establishment to address him.

LEGISLATURE DISSOLVED ELECTION OCT 20TH

SIR WILLIAM HEARST HAS NOT SHOWN THE DISPOSITION OF THE ONTARIO LEGISLATURE TO BE DISSOLVED FOR A GENERAL ELECTION ON OCT. 20, WITH REMISSION ONE WEEK EARLY. AT THE SAME TIME THE PRIME MINISTER, WHO KNOWS THE FACT THAT HE HAS DECIDED TO BRING INTO THE CABINET, ON REPRESENTATIVE OF THE RETURNED SOLDIERS, BRIG. GEN. ARTHUR E. ROSS, MEMBER FOR KINGSTON, ONT., WHOSE RECORD AS THE FRONT AS DIRECTOR OF MEDICAL SERVICES FOR THE CANADIAN CORPS, HAS BEEN ONE OF THE MOST DISTINGUISHED OF A CANADIAN SOLDIER, WILL JOIN THE GOVERNMENT AS MINISTERS WITHOUT PORTFOLIO. THERE IS REASON TO BELIEVE THAT LATER HE WILL BE GIVEN A MORE RESPONSIBLE PART IN THE MANAGEMENT OF THE AFFAIRS OF THE PROVINCE. THE DEPARTMENT OF THE PRINCIPAL SECRETARY HAS DEVELOPED TO SUCH AN EXTENT THAT IT IS NOW BEING A FIELD FOR A SINGLE MINISTER AND WITH THE ADOPTION OF NEW MEASURES DEALING WITH PUBLIC HEALTH, THE CARE OF THE FAMILIES OF RETURNED SOLDIERS AND RELATED MATTERS, A FIELD OF SERVICE WILL BE OPENED FOR WHICH GEN. ROSS WILL HAVE ACCEPTABLE QUALIFICATIONS.

THE PRIME MINISTER'S ANNOUNCEMENT OF AN ELECTION ON OCT. 20 WAS GENERALLY ANTICIPATED THAT IT WOULD BE A LITTLE LATER. AT THE TIME THE MEMBERS OF THE GOVERNMENT WERE GENERALLY AGREED THAT IF A FULL EXPANSION OF PUBLIC OPINION WAS TO BE SECURED ON THE GOVERNMENT'S RECORD AND TO PEOPLE AS THE EXPENSE OF A DOUBLE CAMPAIGN THE ELECTION SHOULD BE HELD ON THE SAME DATE. THERE WERE, HOWEVER, SOME OBJECTIONS TO SUCH A DATE, AND IT WAS ONLY LATE LAST WEEK THAT THE FINAL DECISION WAS MADE.

Woman Shovels Coal On Ocean Liner To Cross The Atlantic

ENGLISH GIRL WORE WIG AND MAN'S CLOTHES TO GET JOB UNDER ARREST IN LONDON FOR "DISORDERLY CONDUCT."

NEW YORK, Sept. 24.—With her hair on short and wearing a man's wig, Miss Wynn, 25 years old, who says she worked her way to London from Southampton, England, as a coal passer on the transport, Palsgrave, seven weeks ago, was arrested before Recorder Cartwright in Holloway, on a charge of being a disorderly person. She was arrested early Monday in that city. "I lived outside Liverpool," she said. "Things were bad in England that I wanted to come to New York. I made four attempts before I got over. Once I tried to sleep away."

but they stopped me. Then I tried to get passage as a stewardess and I was stopped again. At Southampton I tried to smuggle alcohol and was arrested. The Magistrate told me he would give me five years if I tried again. "I had my hair cut short, got a sailor's suit and went on board the Palsgrave at Southampton and they gave me a place as a coal passer. The said she had been working for a man in Liverpool. "Please don't send me back," she pleaded. "If I go back I'll get five years."

The recorder told her for the Federal authorities.

England May Be Tied Up By General Railway Strike

ULTIMATUM SERVED ON GOVERNMENT BY RAILWAY WORKERS RESPECTING WAGE DEMANDS—GOVERNMENT REPLY IS UNJUSTIFIABLE.

SPECIAL DESPATCH TO THE INTELLIGENCER, Canadian Press Limited.
LONDON, Sept. 24.—A general railroad strike throughout England, was again a possibility this morning when the men's representatives served an ultimatum on the government respecting wage demands. The government's reply is expected today. Sir Eric Geddes and Lord George are in conference.

Early in the afternoon Minister Geddes replied to the ultimatum, declaring that the action of the men's executive was unjustifiable and that in order to meet their demands freight rates would have to be advanced probably fifty per cent.

ROYAL OIL WELLS COMPANY

CAPITAL \$500,000 FULLY PAID--NON-ASSESSABLE SHARES 10c PAR VALUE

A limited issue of \$100,000 of the Royal Oil Wells. Every share of this issue is first preferred stock. Preferred as to assets, preferred as to dividends, and in addition participates fully and equally in all profits and all properties as outlined in this announcement.

Royal Oil Wells offers the small investor a golden opportunity to share in the wonder profits of the greatest wealth producing industry known to modern civilization--with the absolute assurance of minimum risk, maximum profit and a square deal from start to finish.

The general management of Royal Oil Wells, Limited, will be under the personal supervision of Glenn Craig Tobias, a thoroughly experienced operator, who is intimately acquainted with the great oil fields of Kansas, Oklahoma and Texas. Mr. Tobias has owned a large number of oil properties, including leases and oil wells, and at present has holdings in both Texas and Oklahoma.

The directors of the Royal Oil Wells, Limited, have thoroughly investigated the character and standing of our general manager, both through the mercantile agencies and the banks. Reports from all sources are such as to justify our confidence in his ability as well as his business integrity.

A man goes out and buys a lease in territory in which he must dig before he strikes oil. He is then faced with the problem of getting a reliable drilling outfit to do the work. He must drill a well to get the oil. He must drill a well to get the oil. He must drill a well to get the oil.

When all men decide to change operations into a field that is new to him, the oil business you should know. In the month of March, about 200 wells were drilled in Texas, Oklahoma, Kansas, and Texas. In the month of March, about 200 wells were drilled in Texas, Oklahoma, Kansas, and Texas.

What matter if you get out of the oil business? You will get out of the oil business. You will get out of the oil business. You will get out of the oil business.

Charles W. Barton, New York publisher, has personally visited the great Texas Oil Fields. Read his article re-published here from the New York Telegraph

UNDEAMED-OF RICHES COME TO MEN, WOMEN AND CHILDREN IN WONDERFUL OIL FIELDS IN LOW STATE STATE.

By Charles W. Barton, Assistant Publisher of The Morning Telegraph.

When I boarded the train for Texas a month ago, I was somewhat skeptical about the reports of the largely-alleged oil stock sale. I was prepared to meet a lot of moonshiners, but I was not prepared to meet a lot of moonshiners. I was prepared to meet a lot of moonshiners, but I was not prepared to meet a lot of moonshiners.

Men and women have gone to sleep at night to find themselves multi-millionaires, because they have struck oil. Men and women have gone to sleep at night to find themselves multi-millionaires, because they have struck oil.

Frankly, I must confess, that I expected to find a lot of crooks in the oil business. All my early training taught me to shun oil investments as I would shun a lot of crooks in the oil business. \$10 May Earn You \$1,000 Five Chances for Gusher Wells--\$10 May Earn You \$10,000 Five Shots for a Fortune

ROYAL OIL WELLS COMPANY

ROYAL OIL WELLS, LIMITED, WILL DRILL FIVE WELLS IN THE DEEP AND PROVEN OIL FIELDS. EVERY WELL WILL BE DRILLED RIGHT UP AMONG THE LARGEST PRODUCERS IN THE FIELDS.

EVERY WELL, ABSOLUTELY, WITHOUT EXCEPTION, WILL BE DRILLED WITHIN 250 YARDS OF THE PROVEN OIL PROPERTY.

THIS POLICY IS AN IRON-CLAD GUARANTEE FOR YOUR PROTECTION AND THE FIRST ASSURANCE OF ITS KIND EVER OFFERED INVESTORS.

50 Per Cent For Dividends

Royal Oil Wells, Limited, is permanently pledged to the policy of substantial dividends--not 3%, or 4%, or 5%, but a full half--50% of every dollar's worth of oil produced. Do you realize what this means to you? Oil companies frequently turn a full 50% profit in 30 days, many of them have earned 100% in 30 days. But the stockholder doesn't get it. Royal Oil Wells, Limited, will be conducted on a different basis. When the money is earned it is yours. Royal Oil Wells, Limited, will be conducted on a different basis. When the money is earned it is yours.

There will be no set dividend rate. The earnings of each month will be split 50-50, 50% for dividends--50% for expenses and additional wells. On the basis of each of our stock outstanding daily production of 1,000 barrels would net you approximately 12%, monthly, 30% quarterly or 144% a year of every dollar invested.

We can't guarantee you that you will make a million dollars over night, but we can and do guarantee you that you will get every penny that you invest, and that every penny that you invest will be put to work for you.

If you want to be an inside partner instead of a mere owner of a share, if you appreciate the kind of company that will pay the profits to you instead of to you, if you want to share in the great oil wealth that is stretching others, fill in the coupon, write the name of the company that will pay the profits to you instead of to you, if you want to share in the great oil wealth that is stretching others.

As a stockholder who buys into Royal Oil Wells, Limited, \$10 is not too little--\$10,000 is not too much. Remember, the more you put in the more you take out. William Hearst Appeals to Electors Of Ontario

RECORD OF GOVERNMENT ONE TO BE PROUD OF—
FORMS WHICH HAVE BEEN ACCOMPLISHED AND
OTHERS WHICH WILL BE INAUGURATED—
PROGRESSIVE GOVERNMENT.

To the electors of the Province of Ontario:
The Legislature Assembly has been convened for the 30th day of the month of March, 1919. I have the honor to acknowledge the receipt of the following manifesto which I have read with the careful attention of every elector:

The Legislature Assembly has been convened for the 30th day of the month of March, 1919. I have the honor to acknowledge the receipt of the following manifesto which I have read with the careful attention of every elector:

In the ordinary course of events this session would have taken place some two years ago, but in view of the national disaster it was deemed expedient to delay the session until after the war had been declared.

It is my duty to report to you the progress of the Government during the past year. I have the honor to acknowledge the receipt of the following manifesto which I have read with the careful attention of every elector:

From the time I took office until the present day, I have been endeavoring to maintain the balance of the budget and to keep the Government out of debt. I have the honor to acknowledge the receipt of the following manifesto which I have read with the careful attention of every elector:

We gathered by special taxation the enormous sum of \$10,000,000 for the purpose of building a new hospital. We have the honor to acknowledge the receipt of the following manifesto which I have read with the careful attention of every elector:

We made large contributions to the Red Cross, and to the United States Government. We have the honor to acknowledge the receipt of the following manifesto which I have read with the careful attention of every elector:

O. T. A. War Memorial.
To further sustain our war effort the Ontario Temperance Act was enacted. We have the honor to acknowledge the receipt of the following manifesto which I have read with the careful attention of every elector:

Notwithstanding the war, the Government has been successful in securing the advancement of the moral and material welfare of the Province. We have the honor to acknowledge the receipt of the following manifesto which I have read with the careful attention of every elector:

It is impossible to overestimate the importance of better roads to this province. We have the honor to acknowledge the receipt of the following manifesto which I have read with the careful attention of every elector:

Prompt Action Taken To Avert Railway Strike In England

Special Dispatch To The Intelligence, Canadian Press, Limited.

LONDON, Sept. 25.—The whole executive committee of the National Union of Railway Men will participate in a conference to be held this morning with representatives of the Government relative to the threatened nationwide strike, according to a notification sent to Sir Eric Geddes, Minister of Transport, early today.

LONDON, Sept. 25.—The cabinet was in session yesterday afternoon for three hours and discussed the railway situation. An announcement after the meeting said the government was willing to continue negotiations with the union, it being desired to avert a nationwide strike.

The conference was resumed at four o'clock this afternoon, although the negotiations were not completed. The government refused to make any concession to the union, and the strike was averted.

A PLATFORM OF PROGRESS

The policies upon which Sir William Hearst will seek the people of Ontario to pass judgment are set out in the following headlines:

- (1) The greatest possible assistance to agriculture in every shape and form.
- (2) The faithful enforcement of the people's verdict on the liquor question.
- (3) Vigorous support of Hydro-Electric development and cheap light and power for our farmers.
- (4) The construction of new power lines into Hydro-Electric lines.
- (5) Good roads reaching every part of Ontario.
- (6) A pension fund for mothers.
- (7) Direct representation of Labor in the Cabinet.
- (8) Establishment of a minimum wage.
- (9) The abolition of the labor laws of Canada on a just and equitable basis.
- (10) Much further labor legislation within Provincial jurisdiction as the basis out of the federal government.
- (11) The International Labor Conference.
- (12) Special consideration to returned soldiers with Cabinet representation.
- (13) A new era of education, providing technical and agricultural instruction throughout the province.
- (14) The construction of transportation facilities.
- (15) Northern Ontario.
- (16) Conservation of our timber resources.
- (17) Measures to reduce the high cost of living.
- (18) Protection of the public health, generous assistance to hospitals and charities, and special care of mental delinquents.

Farmer Killed By German Grenade

man, grenade thrower on exhibit at the Fall Fair here as a war trophy today found the missile killing.

All the firearms in the tropics are supposed to be without explosive charges. This particular grenade had been loaned by the Government for exhibition purposes and came to Fairy Sound Falls from St. Catharines. Scores of people had handled it before without accident. A returned soldier put his hand on the lever remarking that he would not like to carry it far. The lever evidently re-

Mutual Service

In the Past. Some idea of the actual results achieved by The Mutual Life of Canada may be had from the following figures: The Company has paid to policyholders or beneficiaries since organization

\$26,147,776.50

Of this amount more than five and a half millions was paid to living policyholders as endowments; an equal sum was paid out in dividends, while eleven millions was paid to beneficiaries.

In the Future. We are more interested in the Future. The Mutual holds to the fact that for policyholders and beneficiaries whose policies have not matured or become claims the sum of

\$34,505,118.12

This amount is more than sufficient to meet our one hundred and fifty millions of insurance policies as they may become due in Future years. Thus the Company has paid out or holds in trust to pay future claims

\$60,652,894.62

Our policyholders will have protected and will be protected at the lowest cost that gives absolute security.

WILL HAVE GOOD TIME

YOUNG COMPANIONS WITH THE PRINCE OF WALES.

Trip of the Hater in the British Throne Will Not Be Too Formal.—An Account of the Men Who Will Compose Royal Party During the Visit to the Dominion of Canada.

CANADIAN officers who met the Prince of Wales in England or France—and there are hosts of them—were that he is a most likable and unselfish man, who will do his best to have a good time while he is in Canada, and the United States. Nor would the most ardent hater begrudge it to him, for it is not to be forgotten that, he has been under the strain of war for five years, and is entitled in all the relaxation that he can get. The Prince is not making the error that was made by his grandfather, when he visited America about sixty years ago for most of his considerable entourage is made up of men about his own age. The late Prince of Wales was surrounded by men old enough to be his father all his life and gravely selected for him by the late Queen Victoria.

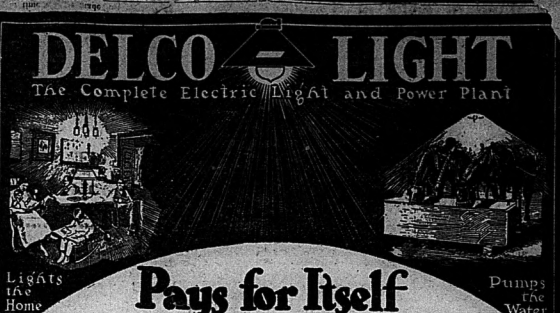

The chief attendant and senior will be Sir Sidney Greville, a younger brother of the Duke of Devonshire, and Sir Sidney will divide his responsibilities with the Duke of Devonshire, the latter a fellow officer with the Prince in the Grenadier Guards. The latter is not to be confounded with the Duke of Devonshire, who was the Duke of Devonshire's father-in-law, and who was the Duke of Devonshire's father-in-law. The latter is not to be confounded with the Duke of Devonshire, who was the Duke of Devonshire's father-in-law, and who was the Duke of Devonshire's father-in-law.

contemporary of the Prince, is Lord Claude Hamilton, who was a D.C. in the present association of the Prince of Wales, and on his ascending throne was appointed private secretary to Queen Alexandra. Lord Claude was made eventually commander of the royal household, and also member of the Prince of Wales, Sir Sidney Greville is a man of mature years, sound judgment and business tact.

He belongs to the Grenadier Guards, was a former A.D.C. to the Duke of Connaught, and is a younger son of Lord Newborough. The latter belongs to that rather restricted group of men who are being on terms of intimacy with King George and Queen Mary. Lord Newton is hardly the sort of man one would expect to find in this exalted position, for he has been called the Labouchere of the House of Lords, witty, unconventional, a humorist, philosophical philosopher. A Conservative in politics he is different to most politicians, and frequently has acted and voted in opposition to his leaders. On one memorable occasion, he thus apostrophized the Marquis of Lansdowne: "We have the most profound admiration for your character. We respect you as a man, as a husband and as a father. But as regards your orders we propose to act in a precisely different direction." He said that Lord Lansdowne was a "sort of political prima donna," which we consider a kindly laugh, and quite as thrilling as the description of the House of Commons as a "tribunal between a registry office and a debating society." It is a pity, perhaps, that he has not been in the cabinet, for he has the character of a man who can acceptably fill in his modern world.

It is perhaps not understood what opportunities are upon the most faithful King. It is not that he is placed upon the shoulders of those who are, these are English gentlemen, and with which he somewhat different. Nevertheless, the experience is a new one, and it is not to be forgotten that the Prince, in Canada, of course, he will be at hand, and he will be in the United States. He will have the value of the C.O.G. in the United States. He will have the value of the C.O.G. in the United States. He will have the value of the C.O.G. in the United States.

Delco-Light
The Complete Electric Light and Power Plant

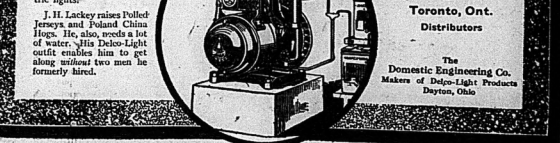

Pays for Itself
ANY one of over 75,000 users will tell you that Delco-Light pays for itself. They will tell you that the pleasure and comfort of Delco-Light cost you nothing.

AROUND the house there is a great big saving in time and work for your wife—time she can very well use for her chickens or her garden or her dressmaking. A. F. Hinnekan tells us that Delco-Light saves his wife 416 hours of housework a year by operating an electric iron, a vacuum sweeper and a washing machine. Besides—no lamps to clean, no matches to use, no danger of fire, lots of light.

C. P. Tressin adds in the time saved from cleaning lamps and makes a total of 547 hours a year. Think of all the things your wife could do with that extra seven weeks. And then you have to think of the electric light till you have experienced it. Just press a button and release a flood of bright, clean anywhere on the farm. You can water stock easily and quickly. You can have hot and cold water in the house. S. W. Cooke & Son, Mayville, have a big herd of Holsteins. Delco-Light pumped the water and done the milking for three years. They figure that their saving is not less than \$1,800.

Mr. Cooke says, they could pretty nearly afford a new Delco-Light plant every year. And remember this saving does not include the convenience and comfort and saving of electric lights.

J. H. Lackey raises Potters and Poland China Hogs. He also, rears a lot of water. His Delco-Light outfit enables him to get along without two men he formerly hired.

Good Evening—Are You Wearing Gorman's Boots?

YOU AUTO OWNERS!

If you're like you have that car of yours—whether it be a \$200 Ford or a \$1,000 Cadillac—overhauled—then it is a while. You don't wait until winter, begin knowing to inspect it. If something is wrong, you let it be. You run on your motor car and right away you adjust that silly, honest little light.

You turned loose that car that's cheaper to tighten a bolt than to buy a spring for low expense to have a short circuit straightened out than to put in a battery. You put the hydro-motor on her faithful.

HOW ABOUT THAT "HUMAN MOTOR OF IDEAS"?

It is running on five cylinders, when all six should be perfected in every way!

Are your valves choked with carbon? Is your carburetor adjusted to just the right mixture?

Looked after your compression lately? Are others shooting past you on the road?

Are you running on a flat tire and taking a chance of being towed home some fine day?

ARE YOU GOING TO WAIT UNTIL THE MACHINE STOPPED BEFORE CONSULTING AN EXPERT ON THE HUMAN MOTOR?

YOU are the man who knows best when your machine balks and gets cranky. You're the driver—every day.

Looked after that short circuit and get that missing cylinder to "tinkle." Have you if you have a "dead" spark plug?

Will adjust your carburetor so that human machine of yours will finally "sing" with regularity.

And it's probable to adjust the difficulty now. Don't wait until your car stops. Don't take a chance of being towed home some fine day.

See your Chemist, Consultation and Special Adjustments. Dr. H. Gorman, 100 St. James St., Montreal, P.Q. Front St., (over Cherry Press) Phone 521. Hours: 10-12 a.m., 2-5 p.m., 6-8 p.m.

\$2.50 buy a Golden Old 500s, Chevrolet, and all accessories for your car. Terms: Cash \$100 and \$100 per week. C. W. Lindsay, Ltd.

Colombia Gramophone Catalogue machine, finished in "tinsel" oak, no lacquer, with 20 exclusive for \$125. Terms: \$15 cash and 95 per month. C. W. Lindsay, Ltd.

Have recent "Take your girl to the movie," at C. W. Lindsay, Ltd.

NOTICE After Sept. 27, our office will be at 283 1/2 Front St., (over Cherry Press) 100 St. James St., Montreal, P.Q. 10-12 a.m., 2-5 p.m., 6-8 p.m.

Have the "Lindsay Special" record 1275-C. W. Lindsay, Ltd.

Day's Best Value Day's Best Value the best value obtainable. At McKee's Drug Store, Belleville.

Two fine passenger trains are run by the Grand Trunk Railway and leave here daily except Sunday at 5:30 p.m. en route to Toronto and Ottawa without change. S. Burrows, Agent.

Why change your mode when you can stay at home, arrangements made for 40 cents per package. Will deliver your goods. We are only at C. W. Lindsay, Limited.

If you want, just come to the Lindsay Pharmacy and ask for the "Lindsay Special" and a \$1.00—\$2.00. Registered and Mummy Mugs—\$2.50—\$3.50 and Mummy Mugs—\$2.50—\$3.50.

Don't miss the "Lindsay Special" Mummy Mugs and Mummy Mugs—\$2.50—\$3.50. Mummy Mugs and Mummy Mugs—\$2.50—\$3.50.

Get your Mercantile License at R. J. Wilson's Insurance Office, 15 Campbell Street.

The Canadian Pacific are now running a direct line from Montreal to Paris and London, as well as other Old Country points. Get your ticket from S. Burrows, Agent.
